

# **Annual Vital Statistics 2012**

*Prepared by*

**Directorate of Economics and Statistics**

**Chhattisgarh**

## Introduction:

Annual vital statistics of Chhattisgarh up to 2011 was based on the monthly summary reports submitted by the districts. These reports had numerous coverage and compilation errors. These erroneous data when compiled at the national level resulted in showing a very poor performance of registration of birth and death in Chhattisgarh. At the state level in Chhattisgarh this poor performance was taken seriously and efforts were made to find the causes and rectify the system. Low and improper reporting from the registration units was found to be the major cause in depicting low registration of birth and death.

The state took challenge to prepare annual vital statistics from the individual level data by collecting all statistical parts of the registered events from each and every registration unit for all the 12 months of 2012. Reporting from 100 percent units was made a mandate at the district level and both state and district machinery worked relentlessly towards this common goal during June and July 2014. Checklist for coverage check and estimated levels of births and deaths in each district helped to reach the goal.

Due to time constraint and huge work load only limited data from statistical part was keyed in through an offline in-house application prepared in CSPro. Information related to residence of the mother/deceased person and the part filled by registrar was entered in the application. Following are the details of the information keyed in:

1. Residence of the mother/deceased
  - a. Rural/Urban
  - b. District
  - c. State

Information from “To be filled in by Registrar”

2. Registration unit name
3. Village/Town
4. Registration District
5. Registration Tehsil
6. Registration number
7. Date of Registration
8. Date of Event
9. Sex
  - a. Male
  - b. Female
  - c. Not stated
10. Place of Event
  - a. Home
  - b. Institution
  - c. Other places
  - d. Not Stated

After cleaning, this data was analyzed and 5 tables of birth and death each and 3 tables of stillbirth compiled out of the 53 prescribed tables of CRVS. These are as follows:

- B1: Live Births by Place of Occurrence, Districts (Rural & Urban) and Towns
- B2: Live Births by Place of Residence, Districts (Rural & Urban) and Towns
- B3: Time Gap in Registration of Live Births (Rural & Urban)
- B4: Live Births by Sex and Month of Occurrence
- B5: Live Births by Place of Delivery (Rural & Urban)
- D1: Deaths by Place of Occurrence, Districts (Rural & Urban) and Towns
- D2: Deaths by Place of Residence, Districts (Rural & Urban) and Towns
- D3: Time Gap in Registration of Deaths (Rural & Urban)
- D4: Deaths by Sex and Month of Occurrence
- D5: Deaths by Place of Death (Rural & Urban)
- SB1: Still Births by Place of Occurrence, Districts (Rural & Urban) and Towns
- SB2: Still Births by Place of Residence, Districts (Rural & Urban) and Towns
- SB5: Still Births by Place of Delivery (Rural & Urban)
